Featuring forty-seven original essays by seventy leading researchers, *Primates in Perspective, Second Edition*, offers a comprehensive and contemporary overview of all major areas of primatology. Thoroughly revised and updated throughout, the second edition offers a diversity of theoretical positions on such topics as reproduction, ecology, and social behavior and intelligence. *Primates in Perspective, Second Edition*, is ideal for introductory primatology courses and can also be used in upper-division behavior and conservation courses. Additionally, it is an essential reference for primate researchers.
